When asked about a time when our members felt powerful at the club, one of our members had this to say “ I try to be normal, it was pretty scary to think that I would have to wear a mask to see my friends but it was like I had a bolt of energy when I stepped in to the Club and saw normal things.” This past year has been a unique & challenging time but as we have progressed to serving kids in a limited capacity our vision and mission did not change. Alongside our dedicated staff, our members

had a place to go for mentorship, guidance and a sense of belonging. This ultimately speaks to the resiliencies that our members have demonstrated this past year. As we look forward to the future our focus will be to continue to strive to become a club of excellence, providing opportunities and connection for our members to become productive, caring, responsible citizens. This includes connecting members with mentors and supporting kids to prioritize a Healthy Lifestyle, Good Character & Citizenship, and Academic Success.

I've worked in many roles at the Boys & Girls Clubs. Starting as a volunteer and stepping into program & Club leadership roles, I learned very quickly that the Club is more than just a fun place for kids. This truly is a powerful place of influence, in which the smallest thing can make the most impact. Our belief in serving kids that need us most was uplifted and inspired by the togetherness of this community. It is crucial now more than ever to respond to the needs of our youth. With your help we can reach youth that need us most and deliver opportunities to help build their Great Future!

Yours in Service,

Andrew Flores
